Starting to create its own collection with its designer team, creaton cotton It has gained a well-deserved place in the Anatolian, Eastern European and Central Asian markets with its JIJIADE brand in the weaving group.

In the last quarter of 2010, our company continued its investments in quilts, sleeping sets and quilted sets. It has diversified itself and its product range in subjects such as pique. However, increasing market volume and quality policysaw the need to increase its capacity and became a central point in textile industry in Denizli. It has put into operation its new production facility with a closed area of 2000 m2 in Bozburun location. Our company entered 2011 having resolved all investment and infrastructure deficiencies. Our company is currently preparing parcel delivery creations for many well-known local and foreign brands. In addition, in hotel textiles, ranforce, akfil, satin and micro satin duvet covers and hotel towel groups are also produced. It has reached the level of a preferred company with its price, quality and customer-oriented fast service.
