GOOD SLEEP GOOD MATTRESS

THE COTONNIER

GOOD SLEEP GOOD MATTRESS

Since the day we started production, we have been working to offer mattresses that can meet all your expectations and needs. We aim to produce mattresses that will increase your sleeping pleasure from the moment you lie down on the bed.

We produce solutions by focusing on customer expectations and needs, not competitors. We can produce all our products in different sizes according to your needs.

Are you looking for the right mattress? Cottonnier makes your job easy and fast. So, you can start enjoying the sleep you deserve.

Mattress is not a product that you can see and control the details and materials used like many products you use in your daily life. You cannot clean and wash it before using it.

Therefore, when buying a mattress, you should make sure that it is produced in a hygienic environment.

It is important for your mattress to have high air permeability, to be antibacterial, and to create a good sleep environment.

Quality sleep in a good bed is a necessity, not a privilege.

Your bed: with all its layers, it should feel like it was produced for you at every point.

Your mattress should be compatible with your body, according to your age, weight and health condition.

Sleep quality is related to quality of daily life.

To start the day rested, you need to sleep in a bed that fully supports your body.

In order to achieve the same quality and comfort sleep every night, you need to procure the most suitable mattress after conscious research.

The springs are placed in the package in independent bags. In this way, sound insulation is provided.

Independently moving springs help distribute body pressure evenly on the bed. Maintaining the correct position of the spine ensures a comfortable sleep. Partners are less affected by each other's movements during sleep.

- ◆ 320 gr knitted fabric
- ◆ Silicized fiber filling
- ◆ Extra comfort foam
- ◆ Interlining
- ◆ High density foam
- ◆ Density wadding
- ◆ 18 cm pocket spring
- ◆ Support foam
- ◆ Decorative side border
- ◆ Ventilation capsule

Support Foam

Flippable Use

Don't Fold

Pocket Spring

Don't Use Bleach

Anti Bacterial

The cotton used in the knitted fabric provides a gentler touch sense when in contact with the body.

In addition, cotton, with its superior moisture absorption capacity, helps to balance the body temperature by carrying the heat out of the body.

Dream Set

A good sleep,
is a gift you keep getting
every night.

Waking up rejuvenated every morning...
it can't get any better than this.

Alpha Set

Soft foam is softer and more flexible than other foam types. It easily takes the shape of the body.

Hercules spring coils are mechanically connected to each other with metal wires.

Eliminates the possibility of sagging in areas where body weight is concentrated.

- ◆ 33 cm height
- ◆ "Wellsoft" fabric
- ◆ Siliconized fiber filling
- ◆ Soft roll foam
- ◆ Interlining
- ◆ Feather foam
- ◆ Hard gray foam
- ◆ Gray foam
- ◆ Padding with increased density
- ◆ Hercules spring
- ◆ Support foam.

It has a comfortable and soft texture. One surface is medium hard, the other surface is soft. The fabric with a velvety touch makes you always feel comfortable with its soft texture.

The pad layer, partially separated from the springs, gives the feeling of a softer floor due to its thick foam.

Your mattress offers you both the durability of the spring and the comfort of its thick foam layer.

Alpha Set

Better sleep starts,
with better mattress.

Queen Set

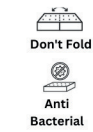

- ◆ Knitted fabric
- ◆ Siliconized fiber
- ◆ Comfort foam
- ◆ Interlining
- ◆ Spine support foam
- ◆ Wadding with increased density
- ◆ Hercules spring
- ◆ Edge support foam
- ◆ Decorative side border

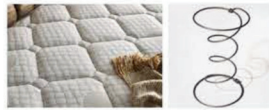

The spine is supported by the high-density foam used in the pad.

The pad layer gives a soft floor feeling with its thick foam. Since the bottom surface of the bed is covered with a high-density hard foam, it increases the life of the bed by offering the advantage of double-sided use. Silky knit fabric, which gives a silky touch, helps you sleep uninterrupted with its soft touch.

Queen Set

Spring coils: They are mechanically connected to each other by metal wires. It eliminates the possibility of sagging in areas where body weight is intense. The high-density foam used in the mattress has given the mattress a soft form.

Wool fabric: By providing quality sleep comfort, it allows you to relieve the tiredness of the day from the body. It is an environmentally friendly, natural mattress fabric that does not contain any chemicals that may pose a danger to human health and nature. It helps uninterrupted sleep with its soft touch.

- ✦ 28 cm height
- ✦ Wool knitted fabric
- ✦ 400 gr siliconized fiber
- ✦ Soft roll foam
- ✦ High density foam
- ✦ Increased density wadding
- ✦ Hercules spring
- ✦ Edge support foam
- ✦ Decorative side border.

Galaxy Set

Sleep deeper and comfier for a better tomorrow.

Galaxy Set

The feeling when you finally found the bed you were looking for...

- ◆ Bioenergy knitted fabric
- ◆ 400 gr siliconized fiber
- ◆ Soft roll foam
- ◆ Interlining
- ◆ High density foam
- ◆ Increased density wadding
- ◆ Hercules spring
- ◆ Edge support foam
- ◆ Decorative side border
- ◆ Spacer

 Support Foam	 Flippable Use	 Don't Fold	 2 Year Warranty
 Hercules Spring	 Don't Use Bleach	 Anti Bacterial	

Bioenergy fabric: It has excellent air permeability with its porous structure. It helps a comfortable sleep by providing air circulation. It is antibacterial.

The **spacer** fabric surrounding the mattress allows your mattress to breathe and helps to minimize the formation of bacteria. It prevents sweating by providing air circulation. It is a medium hard mattress. It has double-sided use with high-density foam used on both surfaces.

Vega *Set*

True comfort is true happiness.

Safari Set

THE COTONNIER

Exercising improves sleep quality.

GOOD SLEEP GOOD MATTRESS

Changing your bedtime habits improves your sleep more than you might think.

Take a warm bath about 90 minutes before bedtime and help you fall asleep faster.

Darkness is essential for better sleep. The absence of light sends the body a critical signal that it's time to rest.

Did you know that sleeping on your left side is thought to be the most beneficial to your overall health?

Waking up early is not just part of our routine; is the key ingredient in conquering the present.

Getting sunlight during the day keeps your body rhythm healthy, so it reduces the time needed to sleep and improves the quality of sleep you get during the night.
